

Michael Theodorides

ABOUT ME Experienced and versatile software engineer with over a decade of hands-on experience in backend and full-stack development, working with modern technologies across a wide range of projects and teams. Agile, fast-learning, and collaborative by nature, I thrive in dynamic environments and bring a pragmatic, solution-driven mindset to every challenge. I take pride in writing clean, maintainable code and contributing to products that make a real impact. Fluent in English and Greek (native), with very good knowledge of Russian. I'm passionate about sharing knowledge and helping teams level up by drawing on my experience and technical insight.
